

### How we work out the scores

Each competitors overall position scores a point depending on their overall placement.

For the ease of reference we start the points at 50 - so the first overall competitor scores 50 points, the 2nd overall competitor scores 49 points and so on.

If there are more than 50 competitors then anyone finishing 50+ will receive 1 point.

If you have entered and began your first lap you will receive 1 point in recognition that you have attended and paid your entrance fee.

Don't forget that its 6 rounds 5 to count so even the competitors at the top of the table will lose their lowest score before the end of the championship changing the totals.

Also there is a class win place available.

Position	Points
1	50
2	49
3	48
4	47
5	46
6	45
7	44
8	43
9	42
